

The Atlantic 37 by Campbell's is a 37 ft. sedan flybridge cruiser or express with galley up that can have two state rooms and one head with a separate shower stall. Dinette/settee will seat six comfortably. All bulkheads are constructed of Tricel core panels with laminate veneer. Trims and doors are cherry (or wood of choice) with bright finish. All exterior finish is Awlgrip.

The 37' hull was designed by Spencer-Lincoln in 2000, with a designed displacement of 18000 lbs. and a hull design that combined traditional downeast lines and keelson with the modern planing type hull for performance. She rides very level on her lines, which allows great visibility and also enhances stability while on the hook.

Last but not least, performance is 20-knot cruise with a Cummins QSC8.3 (600hp) with a top speed of 25 knots when she is full of fuel and provisioned to cruise (add 2 knots for express).

Measurements

- ★ LOA - 37'
- ★ LWL - 34'11"
- ★ BEAM - 13'2"
- ★ DRAFT -4'

Hull

- ★ Atlantic 37 (foam core to waterline)
- ★ Vinylester skin coat & barrier coat
- ★ Finish - Awlgrip
- ★ Bottom paint - Micron CSC

Performance		
Cummins QSC 8.3 liter 600 hp	20 Knot Cruise	25 Knot Top
